

providing the MissingLINK™

WEEE Policy Statement for European Union Customers.

1.0 Introduction

Network Critical Solutions Ltd., will meet its obligations under the EU Directive on Waste Electrical and Electronic Equipment (WEEE). The objective of this policy is to specify the applicable products affected by this directive and to detail the policy and procedures for the return and safe disposal of WEEE.

2.0 Applicable Product

Any finished product is subject to WEEE regulations. A finished product is defined by two criteria:

1. A product with a housing i.e. not an OEM component or sub-assembly.
2. Any product manufactured by Network Critical Solutions Ltd after Q3, 2007

Starting from Q3, 2007 finished product will be labelled with the WEEE compliant logo as follows: -

Any product not marked with the WEEE logo should be disposed of in normal waste streams as per current practice.

Any product marked with the WEEE logo should be separated from other waste streams to ensure that it can be recycled in an environmentally sound manner.

3.0 Network Critical Solutions Ltd. - Limited Liability

Under the European Union. implementation of the WEEE directive the following definitions apply:

Historic WEEE – Goods shipped with the WEEE logo between the dates of 15th August 2005 and 1st July 2007.

New WEEE - Goods shipped with the WEEE logo after 1st July 2007. Network Critical Solutions Ltd., will register as a supplier of WEEE with the Environment Agency and make all the necessary declarations with regard to WEEE sold within the European Union. At the end of life, Network Critical Solutions Ltd., will accept the return of WEEE for the safe disposal and recycling as per the following:

Historic WEEE – Liability for Historic WEEE is applicable only where like for like purchases to replace the existing products is being negotiated. E.g. If 40 of product A are being replaced with product B and that product B could be described as a replacement for product A, then the return of product A for recycling under the WEEE directive is acceptable. If no like for like, replacement sales are being negotiated, then Network Critical Solutions Ltd is not liable for Historic WEEE. In this situation, Network Critical Solutions Ltd may, at its own discretion, quote for the safe disposal of the goods.

New WEEE – Network Critical Solutions Ltd., accepts liability for New WEEE at the end of life and will dispose of safely or recycle goods wherever possible. As defined in the **Terms and Conditions of Sale**, Network Critical Solutions Ltd does not accept any liability whatsoever for the remote collection, shipping costs or packaging of returned goods. All costs associated with the return of WEEE will be born by the customer.

Customers are responsible for the costs of shipping goods to the Central Collection Point and Network Critical Solutions Ltd accepts no liability whatsoever for any such costs.

Date of commencement: 1st July 2007.
